As your local State Farm agent, Phil Borgia provides insurance services to local residents and businesses. This agency offers auto insurance, homeowners insurance, property insurance and life insurance which are foundational when it comes to protecting your future. Through an in depth process we first identify your priorities, next where you currently stand and then identify the areas at risk. Lastly, we discuss options to either eliminate or mitigate, as much as possible, the areas that remain at risk.

We also offer insurance for local businesses like restaurants, hair salons and more. We have policy options for commercial insurance too - including workers compensation insurance and commercial property. Call us for a quote.
